This zine is a free pdf for everybody but if you enjoy it and you want to buy me a coffee here is the address: [paypal.me/cojocearo](https://paypal.me/cojocearo). This zine is a proud 100% diy product, is not about music reviews how they should be, is not about critics, is not about fashion or latest trends, is about feelings, is about my friends, my bands, my passion. Is not about profit, is not for sale and it will never be. Is just a hobby for me, is not my full time "writer/ musician/critic" job. Is not in a perfect english :)  
· All the pictures are used for promo and the copyright remain to the original owners.  
· All the promos are free and i am not taking any profit from promoting some labels or bands

# РУССКИЙ СТИЛЬ РУССКАЯ

**R**usskaja the multi cultural squad is back with Chronicles that will be available on 25th February on Napalm Records /SBAM. The band has more than 15 years of activity and if you are a fan of Dubioza, Gogol Bordello or Culture Shock mixes then for sure you will love them. The band formed in Austria (yes Georgij Makazaria the vocalist is Russian) in 2008 and they play a turbo polka metal as they say...well more like a mix of everything that we like from ska, to punk to metal and gypsy influences. So grab your dancing shoes and vodka bottle and start to dance.

I want to write something more personal, so in this number I am gonna write a bit about The Offspring. Yes I know...not so punk rock, but still I did enjoy their old albums and must say that they always have been around. Formed in 1984 in Garden Grove, under the name Manic Subsidal, they change later the name in Offspring. More than 38 years of music and mostly the same line up (well besides Ron and Greg that they left). First I heard them on Ixnay On The Hombre with Gone Away and All I Want...yes this album was released in 1997, one year before the mega hit Americana and two years after Ignition and Smash. I got in love with them and to be honest they were always in my top, but for some reason I drop them after Conspiracy Of One in 2000 and just listen some songs but that was all, so now I got the chance to listen to Let The Bad times roll and to be honest it is a good album. I still remember that in the 2001 I think in Romania was a small book about The Offspring from "Cartea de Nisip" I think it was edited in the same time with Korn and I remember being in my city, Constanta, and the book was on sale in Pheonix Club and as well there you could by their cd's. So enough with the memories for now...see you next number maybe with The Vandals. Cheers

This is a re-edit version from their 1998 EP *Going Steady*, that was released by Burning Heart Records. So this is a deluxe pack with two LP's, the first one with 12 tracks and the 2nd one with 13 tracks. The version includes their EP *Visions* in full and b sides and early singles from various compilations and as well covers from: Circle Jerks, Dead Kennedys, Hard Ons, Misfits and more. The band formed in 1991 In Sweden and they are next to Millencolin some legends fro the Swedish punk scene. Their name is coming from Sex Pistols version of No Fun (original from The Stooges) and the last part from Sick Of It All band, pretty nice eh?

we love them.
